DETAILED ACTION

Continued Prosecution Application

The request filed on 4/4/01 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 08/973,363 is acceptable and a CPA has been established. An action on the CPA follows.

Claims 34-54 remain pending. Claims 50-54 were withdrawn from consideration in Paper No. 15 as being drawn to a non-elected invention. Claims 34-49 are under consideration in this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 34-49 stand rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for isolated nucleotide sequences consisting of SEQ ID NOS: 1, 2, 3, 4, 5, 10, 12, 13, or 15, does not reasonably provide enablement for any other nucleic acid. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims for the reasons of record in Paper No. 18.

Application/Control Number: 08/973,363

Art Unit: 1632

Applicant has not responded to this ground of rejection.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 36-41 and 44-47 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, for the reasons of record in Paper No. 18.

Applicant has not responded to this ground of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 36-47 stand rejected under 35 U.S.C. 102(b) as being anticipated by Delmas et al (1993), for the reasons of record in Paper No. 18.

Applicant has not responded to this ground of rejection.

Application/Control Number: 08/973,363

Art Unit: 1632

Claims 36-41 stand rejected under 35 U.S.C. 102(b) as being anticipated by random hexameric nucleic acids, product C1181, in the 1990/1991 Promega Biological Research Products Catalog, page 138, for the reasons of record in Paper No. 18.

Applicant has not responded to this ground of rejection.

Conclusion

No claim is allowed.

All claims are drawn to the same invention claimed in the parent application prior to the filing of this Continued Prosecution Application under 37 CFR 1.53(d) and could have been finally rejected on the grounds and art of record in the next Office action. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing under 37 CFR 1.53(d). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the

Application/Control Number: 08/973,363

Art Unit: 1632

statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

This application contains claims 50-54 drawn to an invention nonelected with traverse in Paper No. 14. A complete reply to this final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
